EXPERIENCES

Web Designer

Trailsi | Oct 2023 -Feb 2024 | Lund

During my work at Trailsi, we aimed to develop a new website prioritizing user experience. Drawing on my web and UX design expertise, I collaborated closely with colleagues and management to ensure timely delivery. Impressed with my work on the website, my manager entrusted me with designing a new Android app. Using Design Thinking and Figma's design system, we successfully completed both projects. We use Jira, Confluence to keep working with each other efficiently and transparent. I had a great time working there.

Videographer/ Graphic Design

Mobilizing Expertise | Sep 2022 - Jan 2023 | Lund

At Mobilizing Expertise, my role primarily centered around graphic design tasks. This included creating various series of Instagram and infographic posters, as well as logos for events in collaboration with Erasmus partners, using Photoshop or Adobe Illustrator. Additionally, I was responsible for editing event interview videos with Final Cut Pro or other video editing tools, and producing educational content for company programs.

GM Assistant/ Finance/HR

Talent Fishers | Dec 2013 -Apr 2016 | Shanghai

Each week, I begin by preparing the finance report for submission to the Tax Bureau. I also handle the processing of work permits for our foreign colleagues based in Shanghai, company's license matters, etc. Additionally, on a monthly basis, I assist my manager in calculating and verifying salaries to ensure they are accurately disbursed on schedule.

Office Manager

Kid Cashmere | Nov 2011 - July 2013

In my role as Office Manager, I oversaw supplier sourcing and factory coordination for our cashmere garment production. I maintained strong relationships with both suppliers and customers. Additionally, I supported my boss in invoicing and managed product stocktake using the MYOB system.
